## W10-P1: show w09-resume locally

The screenshot shows a web browser window with the address bar displaying `127.0.0.1:5500/demo_11.html#`. The browser has two tabs open, both titled "My Homepage". The page content includes a navigation bar with links: "李翌楷 - 211411011", "w1-intro", "w2-card", "w4-blog", "w6-grid", "w8-landing", and "w9-resume". The main content area features a profile card for "JOHN DOE" with the title "SOFTWARE ENGINEER" and an "ABOUT ME" section with placeholder text. A red box highlights the "w9-resume" link in the navigation bar.

On the right side, a code editor (Visual Studio Code) is open, showing the HTML code for the page. The code includes a navigation bar and a section titled "show-classdemo". A red box highlights the following code snippet:

```
<iframe src="./demo/w10_11/resume_11.html" width="100%" height="100%"></iframe>
```

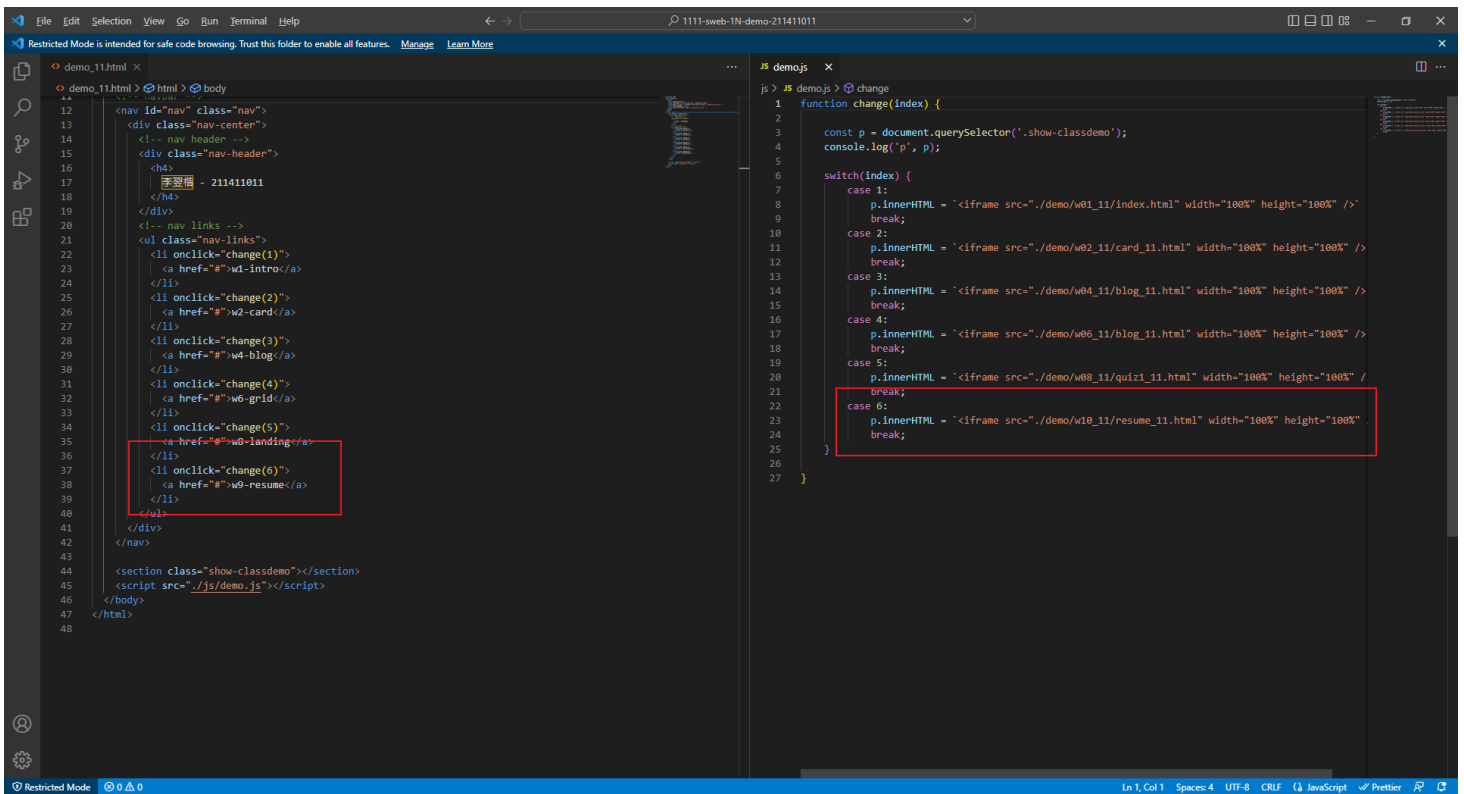

Below the code editor, the CSS styles for the selected element are displayed. The styles include:

```
element.style {
}

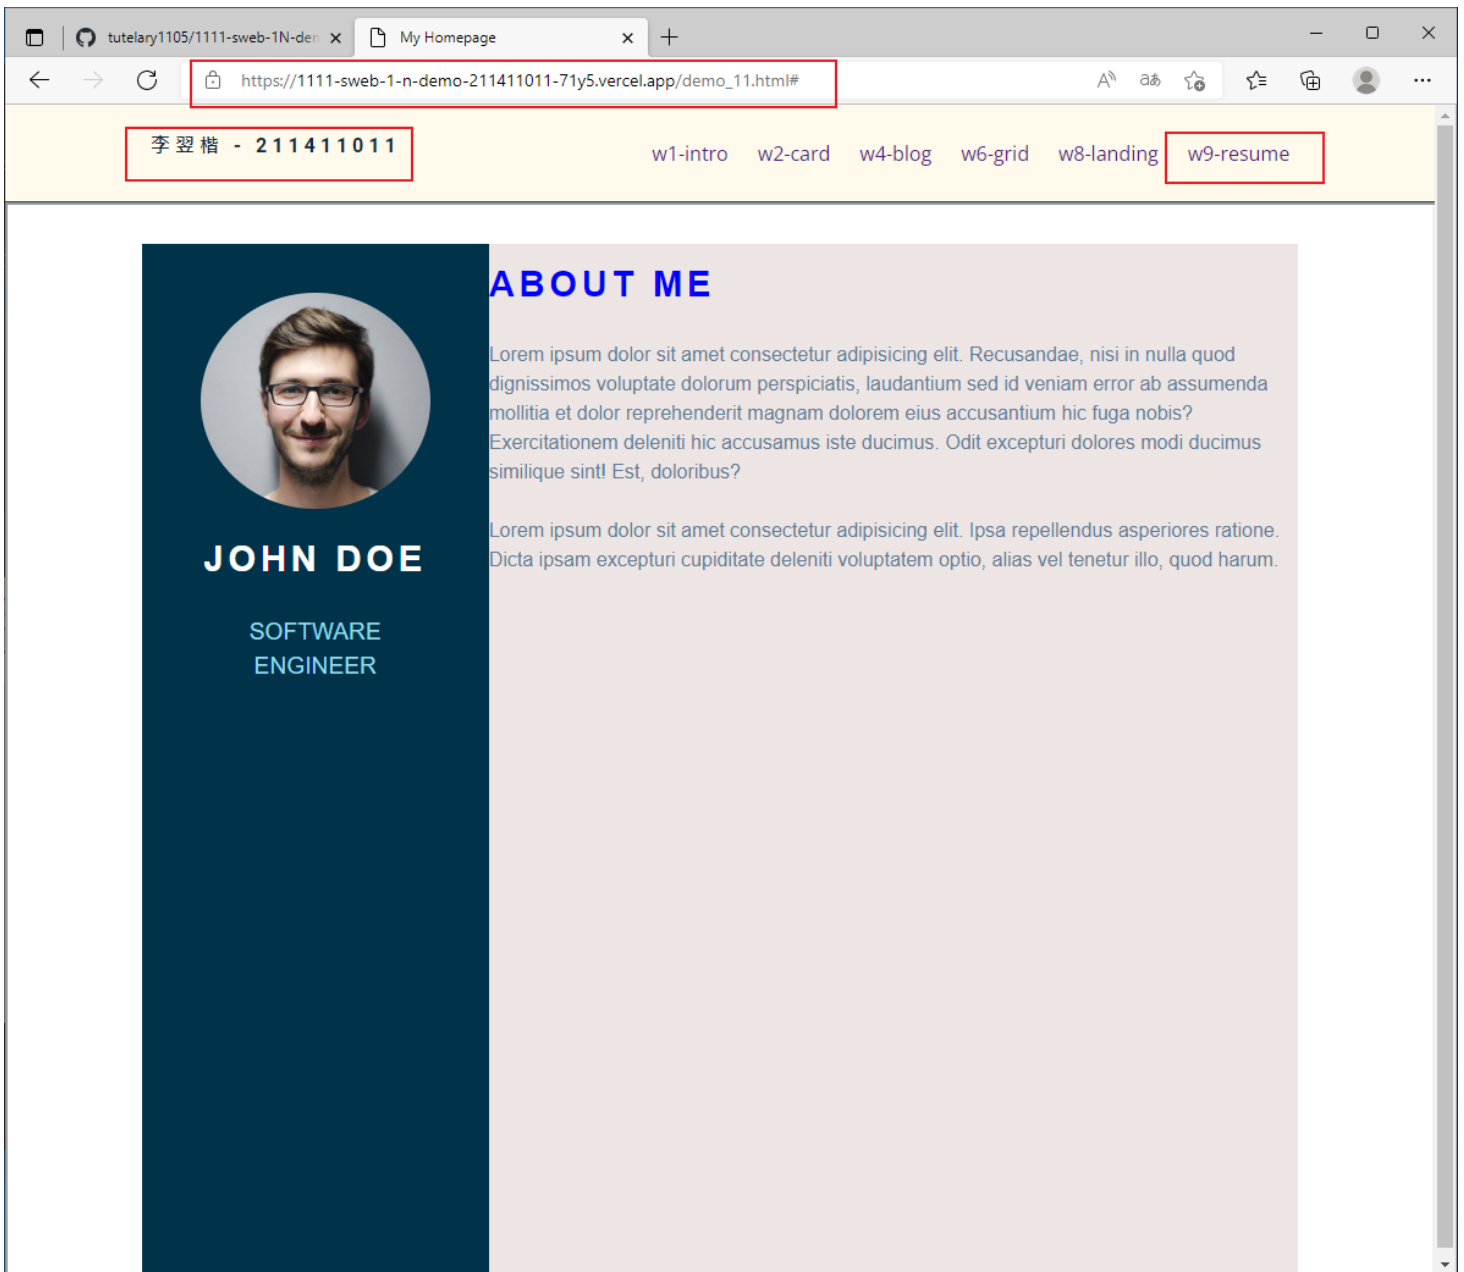

*, ::after, ::before {
  margin: 0;
  padding: 0;
  box-sizing: border-box;
}

iframe[Attributes Style] {
  width: 100%;
  height: 100%;
}

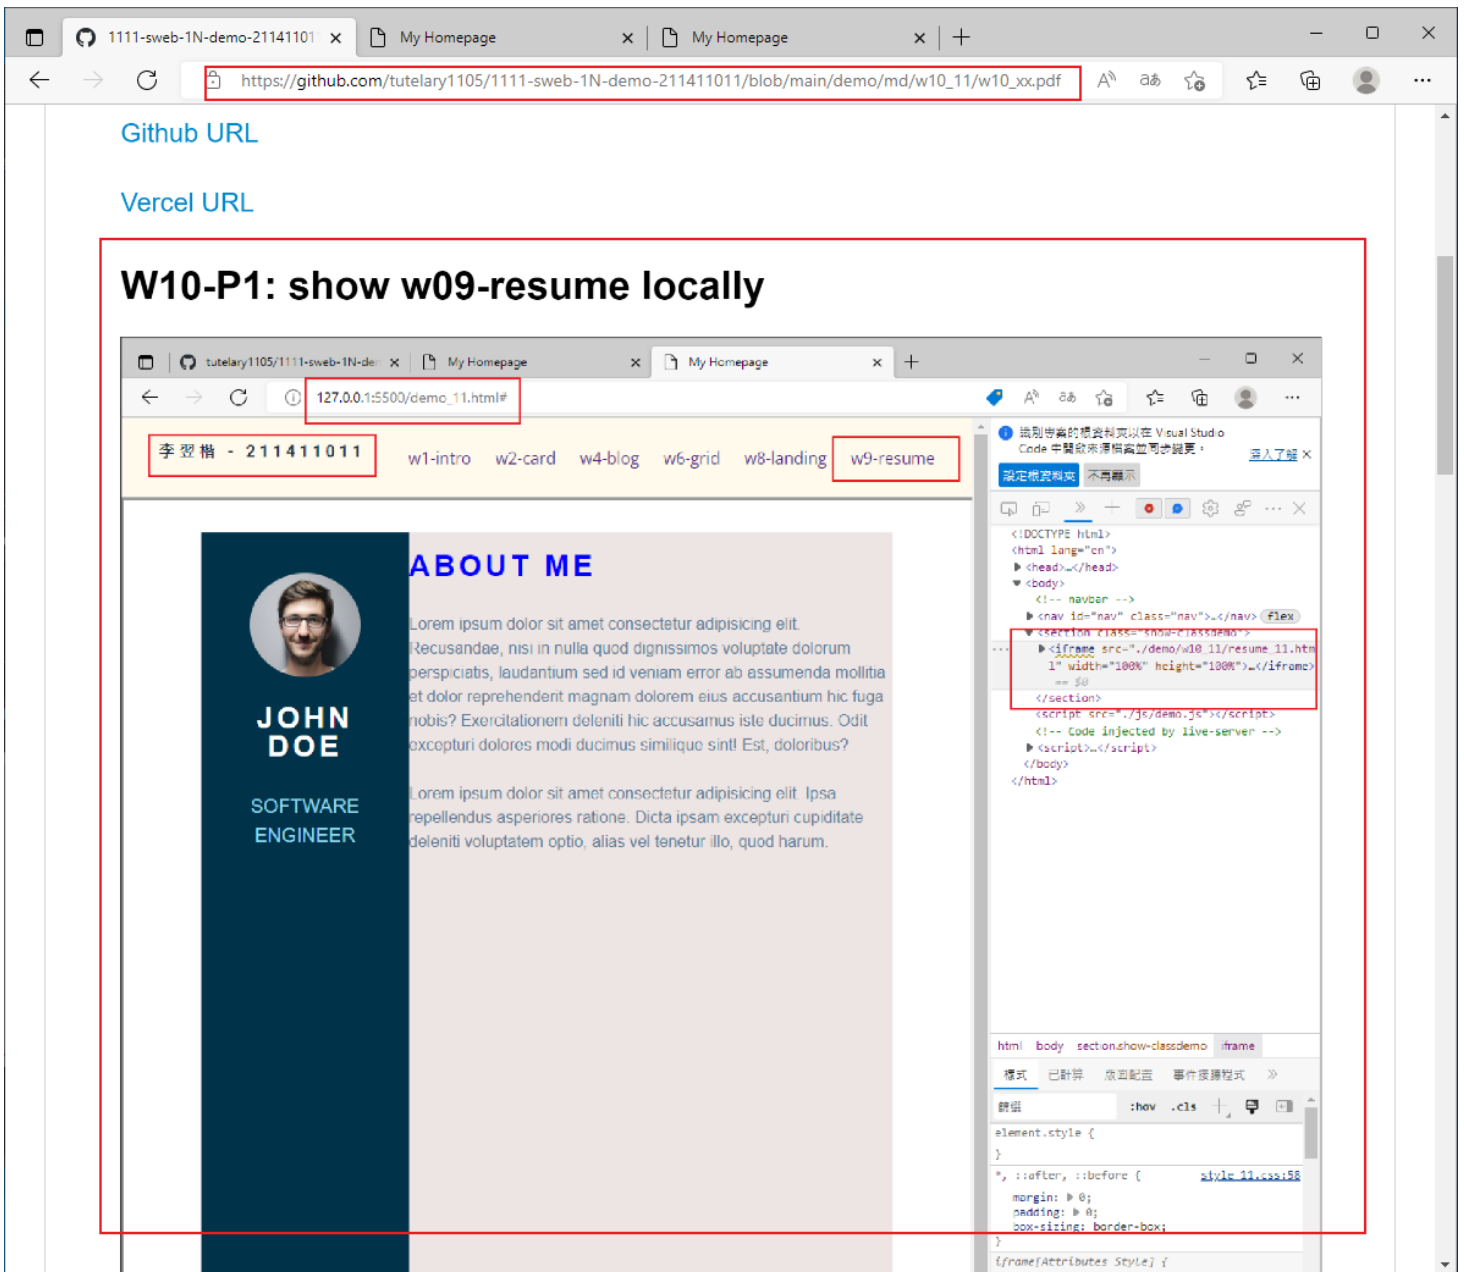

iframe {
  border-width: 2px;
  border-style: inset;
  border-color: initial;
}
```

**W10-P2: show w09-resume from Vercel**

**W10-P3: show w10\_xx.md from Github**
